Washington, DC 20590

RE: CCAD Cargo and Seafood Transfer Facility - DTOS59-21-RA-RAISE

Mr. Buttigieg and the RAISE Review Committee:

This letter is in support of the Coos County Airport District's application for the RAISE Transportation Discretionary Grant program funding for the construction of a modern cargo and seafood transfer facility.

This project will remove hazardous World War II facilities and will open up property for a modern functional cargo storage and transfer facility, which in turn will allow for regional seafood harvesters to export their products nationally.

As a regional economic development organization located on the southern Oregon coast, it is our priority to support our seafood industry as they seek an economical and efficient way to get fresh products to vendors. This need has been an ongoing issue for the industry especially on the Southern Oregon Coast. This facility, in conjunction with having access to industrial size freezer and refrigeration space, will help us become more competitive in the seafood market, creating a direct economic benefit for Southern Oregon, which includes Coos, Curry and Douglas Counties.

We are pleased to have the opportunity to support this grant application. This is a great way to RAISE our local economy.

Sincerely,

A handwritten signature in black ink, appearing to read "Shaun Gibbs", is written over a light blue dotted line.

Shaun Gibbs
